

# The State of Washington – A Great Place to Live and Work!

No state is more diverse, or beautiful than Washington. We've got it all, sleepy towns to hip cities, snow capped mountains to ocean beaches, rainforests to grasslands. Washington State also offers a diverse range of careers, including a variety of opportunities in agriculture, recreation, fish and wildlife, natural resources, and related sciences. Take a look at the state agencies that are currently recruiting:

## Department of Agriculture

Our mission is to protect and reduce the risk to public health by assuring the safety of the state's food supply. One way we accomplish this is by ensuring the safe and legal distribution, use, and disposal of pesticides and fertilizers. We're seeking applicants for Apple Maggot Supervisor, Entomologist, Food Safety Officer, Grain Inspector, Gypsy Moth Trapper, Plant Services Inspector, and Seed Analyst positions. Visit us online at <http://www.wa.gov/agr/default.htm>.

## Department of Ecology

We're Washington State's principal environmental management agency. Our mission is to protect, preserve, and enhance our state's environment and to promote the wise management of our air, land, and water for the benefit of current and future generations. Our goals are to prevent pollution, to clean up pollution, and to support sustainable communities and natural resources. We're recruiting for the positions of Environmental Specialist and Environmental Engineer. Learn more at <http://www.ecy.wa.gov/>.

## Department of Fish & Wildlife

Our mission is to provide sound stewardship of fish and wildlife in Washington State. We share this responsibility by fostering partnerships with public and international entities, tribal leaders, and public volunteer and service groups.

We are currently developing pools of qualified candidates for the positions of Fish and Wildlife Enforcement Officer, Fish and Wildlife Biologist, and Fish Hatchery Specialist. Log onto <http://www.wa.gov/wdfw/> for more information.

## Department of Natural Resources

Our mission is to provide professional, forward-looking stewardship of our state lands, natural resources, and environment. We strive to provide leadership in creating a sustainable future for the Public Land Trusts and all citizens of our state. We are building candidate pools for Forester, Natural Resource Engineer, and Environmental Specialist positions. Visit us online at <http://www.wa.gov/dnr/>.

## Parks & Recreation Commission

We acquire, operate, enhance, and protect the diverse system of recreational, cultural, historical, and natural sites throughout the state. We're committed to maintaining a valued legacy for future generations through the fostering of outdoor recreation and education. We're seeking Park Rangers for future openings. For more information, log onto <http://www.parks.wa.gov/>.
